28th October, 2021

Dear Parents/Guardians,

Notice on "The passing away of one of our students" 2021-2022 No.073B

(To: All Students)

It is with great sadness to notify you one of our P.2 students who was previously admitted to hospital had passed away yesterday (27 October). This tragic incident is heartbreaking.

In response to the incident, the school has immediately arranged the Education Bureau's educational psychologist, school teachers and school social workers providing assistance to students with emotional distress. In order to support students' emotions and feelings, those of the same class and group of the student who passed away will be counseled by the class teacher and educational psychologist. For the other students, a special class teacher class will be conducted to briefly explain the incident and provide guidance to students in need.

In addition, all the teachers will pay close attention to the emotional reaction of the students in the school and provide timely follow-up and guidance.

We would invite parents to pay special attention to your children and you are encouraged to share their worries and feelings, and show them care and support. If you have any concern, please contact the class teacher and the student guidance teacher, Miss Lam and Miss Tsui (Tel. 25668978). The school will use our best endeavours to provide timely support.

Mr. Chim Hon Ming
Principal, CSSHK
